

Viviscal™ PRO
by BENEV

Victory over thinning hair with Viviscal Professional

Rethink thinning hair with clinically proven Viviscal Professional. The drug-free blend of vital nutrients, including our exclusive AminoMar® marine complex promotes healthy hair growth from within. Viviscal Professional nourishes thinning hair that is prone to breakage and shedding due to stress, poor diet, hormonal changes, and over styling.

Benefits of Viviscal Professional:

100% drug-free

Suitable for both men and women

Clinically proven to nourish thinning hair and promote existing hair growth

Clinical Proof:

How Does Viviscal Professional Work?

Viviscal Professional supplements nourish hair from within in four stages. Users may see results in as little as three months, depending on each individual's hair growth cycle.

Stage 1

Hair follicles are nourished through the consistent intake of nutrients and marine complex in each tablet.

Stage 2

Strengthens and promotes the growth of existing hair. Also, thin and wispy hair is strengthened through increased nourishment.

Stage 3

Breakage and thinning continue to decline, encouraging existing hair growth.

Stage 4

Hair appears stronger, healthier, and more vibrant as nutrients are thoroughly replenished.

Ingredients:

Along with the proprietary marine complex AminoMar®, Viviscal Professional contains key nutrients essential for healthy hair growth.

AminoMar® Marine Complex

is derived from key marine sources. It is the exclusive active ingredient in Viviscal Professional supplements that promote existing hair growth from within.

Apple Extract (Procyanidin B2)

is an essential ingredient that has been shown to increase hair density and diameter, promoting hair growth.

Biotin (Vitamin B7)

is a vital ingredient for healthy hair growth. It helps the body metabolize carbohydrates, fats, and amino acids, which are the building blocks of protein, and thus essential in the formation of the healthy hair structure.

Vitamin C
protects the hair from free radicals.

L-Cystine and L-Methionine

are essential amino acids in the formation of hair and skin, offering a positive effect on hair growth.
